

Caring for the environment.

AT TRENTON BOX, we are acutely aware of our responsibility to the planet and the people we share it with. This is why we aim at all times to minimise our impact on the environment – by sourcing raw materials responsibly, by using packaging material economically and by recycling waste products where possible.

As we have been ISO 14001 accredited, our customers can rest assured that all our production processes are geared to minimise environmental impact.

We carry the essential and credible Forest Stewardship Council (FSC) chain of custody certification. The FSC is an international, non-governmental organisation that promotes responsible management of the world's forests.

FSC certification ensures that raw materials are sourced from well-managed forests, with a certifiable chain of custody – from a specific forest to the end user. At each stage in the production process, forests, mills, board suppliers and packaging materials each have their own certification

reference that is used with the FSC logo to demonstrate chain of custody compliance.

Where a customer orders cartons specifying that they are to be manufactured with FSC board then they have the option of including the FSC logo in their artwork. We also strive to reduce our environmental impact in many other ways. At the design stage we aim to use materials economically and avoid waste. All waste paper, board and plastic wrapping is sent for recycling. We even recycle our used plastic ink pots.

Licensed carriers are used to handle and process any chemical waste we generate, as well as the residual alcohol/water solution used in the printing process.

All energy usage – including oil, gas and electricity – is constantly monitored to seek ways of saving consumption. Because we run our own fleet of delivery trucks, we can plan delivery routes to optimise energy efficiency and save fuel.

As well as meeting statutory environmental requirements we are also compliant with all necessary Food Safety and Factory Health and Safety legislation.

Contact us NOW to find out how we can help you, or visit our website for more information about our products and services.
